

# Product data sheet -

Gas combisteamer FlexiCombi MagicPilot 6.1

MKN-No.: FKG061R\_MP

A flexible combination oven unit for manual and automatic cooking. Combi steamer according to DIN 18 866 (part 2) suitable for most of the cooking methods used in commercial kitchens.

Manual operation with Steaming, Convection, Combisteaming and Perfection. Automatic with 10 autoChef cooking categories from meat to Perfection - the climate regeneration.

FlexiCombi offers a choice of cooking functions with convection and pressureless fresh steam either separately, one after the other or combined with moist or dry heat.

# Technical highlights

#### MagicPilot – operation

**Magic Pilot** 

Robust, wear-free, capacitive true colour touch screen - protected behind 3 mm hardened safety glass. Can be seen optimally from all sides. 800 x 480 Pixel and 16 Mio. colours. Durable LED background lighting.

#### ChefsHelp – user information

Insertion of user information into the Chefs**Help** text and graphics at any position where required during the cooking process. Optionally with audible signal. Large visual display.

## **VideoAssist**

▶ VideoAssist

Interactive user assistance with clips featuring professional chefs.

### CombiDoctor - self diagnostics programme

Automatic self-test for all relevant appliance functions such as climate function and cleaning function. Results are shown in display.

Dyna**Steam**<sup>2</sup> PHIeco with DynaSteam2

High speed centrifugal steam generation technology with heat recovery and dynamic, microprocessor controlled steam quantity adjustment depending on the cooking process - DynaSteam2.

#### **QualityControl**

**Q**uality**Control** 

Registers the food load automatically, adjusts the cooking process for autoChef cooking programmes – without using a core temperature probe! Quality assurance - you always achieve perfect results regardless of the food load.

#### **FamilyMix**

Products which can be cooked in the same cooking chamber climate are suggested in a clearly arranged list. Efficient utilization of the cooking chamber capacity.

#### **EasyLoad**

Crosswise insertion supplied as standard to ensure safety at work.

Distance between insert levels 68 mm.

#### FlexiRack – capacity concept

Hanging rack for FlexiRack with tilt protection for containers and for GN 1/1 crosswise insertion. FlexiRack special sizes for a capacity increase up to 50% during cooking.3

\* compared to GN 1/1

# WaveClean – automatic cleaning system

- safe the detergent is in a cartridge sealed with protective wax
- easy insert the cartridge, ready
- · economical by recirculation system

MKN-No.: FKG061R MP

#### Further features

- preselected international cooking processes can be individually modified.
- more than 350 cooking programmes can be saved (autoChef & own)
- overview of individual favourites on the screen
- programme protection against modify/cancel
- adjustable language display, full text search
- Manual operation concept with 12 cooking modes: soft steaming, steaming, express steaming, convection, combisteaming, Perfection, low temperature cooking, ΔT, Sous vide, humidification, baking and rest function
- StepMatic up to 20 programme steps can be combined
- Time2Serve enter the required completion time
- RackControl multiple timer
- ClimaSelect plus Climate control
- Ready2Cook preheating, cool down, climate preparation
- PerfectHold holding function with SmartCoolDown
- multipoint core temperature measurement up to 99°C
- SES Steam Exhaust System
- autoreverse fan wheel for extremely uniform cooking performance
- 5 air speeds, in connection with fan intervals even 10 air speeds can be programmed
- fan wheel safety brake, integrated grease separation system
- calling cooking programmes with BarcodeScan in autoChef
- manual cleaning programme with user guide
- MFB forced air burner technology
- energy supply as required, reduced heat output (E/2)
- EcoModus reduces temperature of cooking chamber autom. when this has not been charged for some time
- MKN CombiConnect PC software equipped as standard to compile cooking programmes, for visualisation, storage and printing of HACCP data
- integrated HACCP memory
- start time pre-selection in real time
- manual steam injection/humidification
- professional baking function set baking programmes with humidity injection in ml, a rest period and dehumidification
- temperature controlled vapour quenching
- integrated shower hose with automatic retractor function
- 316S11 durable hygiene cooking chamber, medical grade
- cooking chamber with halogen lighting behind shockproof glass
- hygienic cooking chamber door with triple glazing
- door lock with end stop, non-contact door switch, insertable door seal - replaceable by the enduser
- USB interface e.g. for software updates\*
- cooking recipe import function by using a USB stick
- display blinks after cooking time has elapsed
- loudspeaker, selectable sounds
- connection to external air outlet hood
- direct waste water connection according to DVGW is possible
- the siphon is included with the appliance

without surcharge under www.mkn.eu

# Installation requirements

- connection to the water supply mains provided by customer
- connection to waste water provided by customer
- gas connection provided by customer
- Electricity supply

#### Technical data

Dimensions (LxWxH) (mm):	1020 x 799 x 790
Rated heat load (kW):	11
Connected load (electrical) (kW):	0,6
Voltage¹ (V):	230 1 NPE AC
Recommended fuses (A):	1 x 16
Frequency range (Hz):	50 or 60
Standard gas pressure – natural gas² (mbar):	20
Standard gas pressure – liquid gas² (mbar):	30 (DE), 50 (EU)
Gas connection:	DN 20 (3/4")
Exhaust gas connection:	compartment air system with safety shutdown
Exhaust gas discharge system:	B13 (with) B23 (without flow operated safety
Soft water connection:	DN 20 (G 3/4" A)
Water connection:	DN 20 (G 3/4" A)
Waterpressure (bar):	2,0 - 6,0
Drain connection:	DN 50
FlexiRack (530 x 570 mm):	6 (max. 65 mm deep)
Gastronorm 1/1 (530 x 325 mm):	6 (max. 65 mm deep)
Gastronorm 2/1 (530 x 650 mm):	-
Baking standard (600 x 400 mm):	5 (insert levels 85 mm)
Plates Ø 28 cm on FlexiRack grids:	24
Plates Ø 32 cm – plate trolley:	22
Material cooking chamber (housing):	1.4404 (1.4301)
Net weight (Gross weight³) (kg):	137 (160)
Heat emission latent (W):	2200
Heat emission sensitive (W):	1700
Type of protection:	IPX 5

## **Product safety**

◆ CE mark
◆ kiwa approved
◆ WRAS

#### Option / accessories

- Left hand hinged door
- Two position safety door lock
- Connection for external multi-point core temperature probe (can not be retrofitted)
- 2nd multi-point core temperature probe (can be used at the same time as an internal multi-point core temperature probe) or sous vide (single point sensor)
- GN lengthwise insertion
- Hanging racks for baking size 400 x 600 mm
- Regeneration and plate banquet systems, thermal insulation hoods
- FlexiRack special accessories
- GN containers, GN grids and special baking and roasting trays
- Two-in-one cartridges
- Stacking kits for table-top appliances · Stands and base cupboards
- Steam condensation hood
- Marine version
- Flow operated safety (exhaust stack)
- Flow operated safety (exhaust stack)
- Wireless barcode scanner including USB cable for charging Wireless barcode scanner including USB cable for charging
- IPX 6 Protection against powerful water jets
