Make Art®

Freshly prepared in front of the guest: A topic that is becoming increasingly important for the food retail industry due to the change in gastronomic concepts. The Make Art® tables, showcased for the first time at EuroShop, are perfect for minimal space concepts due to their flexibility and compactness. Whether with cold or hot storage, neutral or refrigerated ingredient tub, refrigerated cutting surface or in combination with other devices (grill, wok, hob, etc.) – the modularity combines ergonomic handling with efficient preparation of fresh dishes directly at the point of sale.

Shop-in-shop

Shop-in-shop solutions provide an innovative way to optimise retail spaces and to create a unique shopping experience for customers. Whether fresh sushi, vegan snacks or savoury piadina: There are no limits to the concepts. The Make Art® tables in conjunction with the IDEAL AKE product range provide the appropriate solution for any shop-in-shop concept.

Make Art® Hot

The Make Art® Hot with hot storage in the base is perfectly designed for preparing hot grab & go dishes, but also for preparing and offering complete meals.

Countertop heated display case

Raised back wall with 3 power outlets incl. storage board with 3 chutes

Setup possibility for regeneration oven or steamer provided by the customer

Heating tray Hot Marie with hook-in frame for stocking up to GN 1/1 (150 mm)

Open compartment with storage possibility incl. GN slide-ins for 2 × GN 1/3 and 2 × GN 1/1 trays

Hot Storage for stocking with GN 1/1 or GN 2/4 (up to 150 mm)

Open compartment with storage possibility incl. GN slide-ins for 3 × GN 1/1 trays

Make Art® Cool

The Make Art® Cool with refrigerated storage offers individual options for preparing and finishing dishes such as flatbreads, burgers and wok dishes right in front of your guests.

Raised back wall with inclined (uncooled) neutral well across the entire width for stocking GN trays (150 mm) incl. 2 power outlets

Inclined refrigerated well for stocking up to GN 1/1 to (200 mm)

Setup possibility for a cooking module or grill incl. 400 V power outlet

Base refrigerated counter with 2 × 2 full-extension drawers

Open compartment with storage possibility incl. GN slide-ins for 3 × GN 1/1 trays

Make Art® Cool Stone

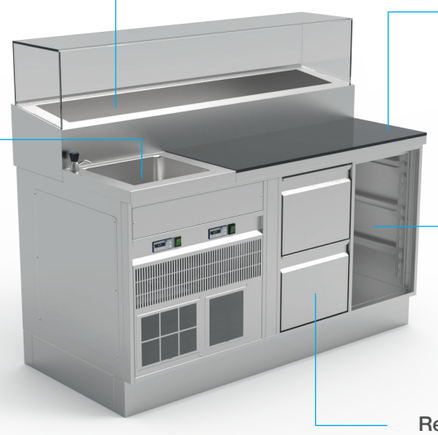

The Make Art® Cool Stone is a compact all-in-one solution to safely store and process sensitive food such as raw fish and meat directly in front of the customers. Thanks to a refrigerated cutting surface, the cold chain remains uninterrupted, even during preparation.

Inclined refrigerated well
for stocking with 9 × GN 1/4 (150 mm high)

Cooled cutting surface
made of stone

Sink for cleaning the food

Unrefrigerated supports
for GN trays in the base

Refrigerated food storage

Make Art® Snack

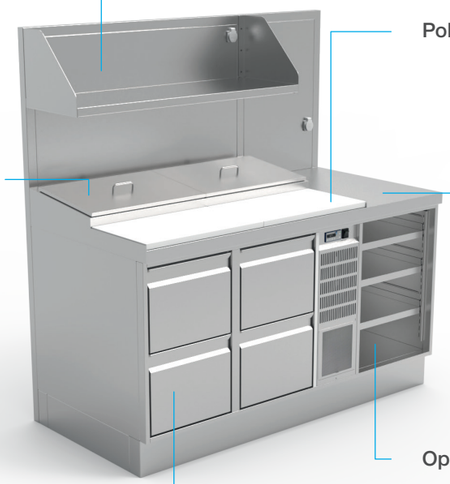

The Make Art® Snack with refrigerated base is perfectly designed for preparing sandwiches and snacks. The cutting board enables clean working – together with the refrigerated base and refrigerated ingredient section, this is the ideal solution for efficient concepts in confined spaces.

Raised back wall with 2 power outlets incl. storage board

Poly-hygiene cutting board

Inclined cooling attachment suitable for 6 × GN 1/3 (150 mm high), insulated, split night cover

Setup possibility for countertop units such as toasters provided by the customer

Open cabinet in the base

Refrigerated food storage
