HOT VARIO

Grab & Go is a major trend, and the modular heated display case Hot Vario was developed for precisely this purpose. Accessories such as snack waves and product slides ensure your merchandise is perfectly presented, and can be removed ergonomically.

Its compact design means that Hot Vario can be used according to your individual requirements: from a single countertop module to a tower solution with an individual number of units combined on top of each other.

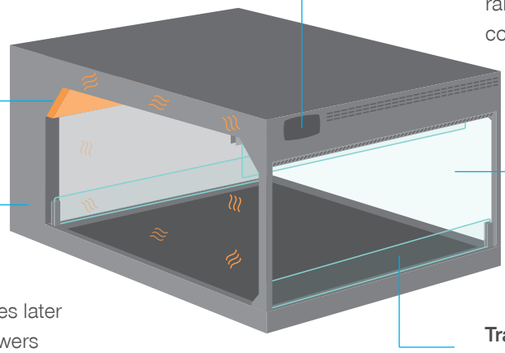

ONLINE CATALOGUE

Complementary products

The Hot Vario heated display case is perfect for combining with the IDEAL AKE product range, for instance Hot Storage, Cool Bottle or Caleo.

Highlights

The innovative **circulating-heat technology** ensures that packaged hot snacks are kept at the perfect temperature.

Every module can be **adjusted separately at any desired temperature setting** (adjustable directly or via the app, adjustment range of 40–90° C to guarantee a core temperature of +65 °C)

Low operating noise

Modular construction enables later extension or reduction of towers (with small supplementary kits)

Transparent, light design highlights your products

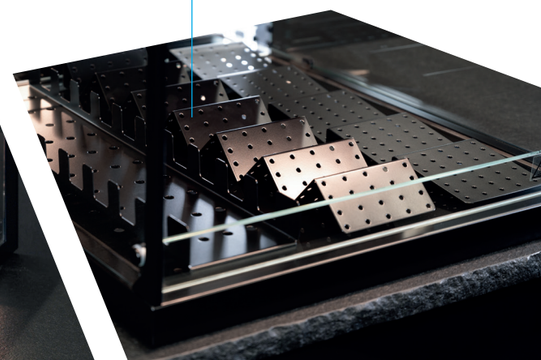

Mirror effect visually multiplies the dishes on display and makes your presentation area appear larger

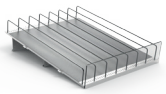

Accessories such as snack waves, snack holders and product slides for perfect presentation and simple removal (individual customisation possible by arrangement)
