Cold Rooms

COLD ROOMS

COLD ROOMS (COOLING) – COLD ROOMS (FREEZING)

Cold rooms and freezer rooms are a perfect plug-in storage solution with quick and easy construction. The refrigeration units are pre-mounted onto a panel and do not require specialist knowledge to assemble. There is no need for cutting or drilling during assembly. The interchangeable modular panels can allow different positioning of both the refrigeration unit and the door.

The cold rooms can be used in restaurant, hotel and café kitchens, as well as convenience stores and delicatessens. They are a great way to create large efficient cooling space at an affordable price.

The large variety of room sizes allows you to find the room to suit your requirements. All rooms are available in either cooler or freezer models. You can purchase as room only without the cooling unit if you require a remote refrigeration installation. Rooms can be bought with optional shelving if required.

COOL PRODUCTS WORLDWIDE

General info about our cold rooms

- Temperature range from 0 to +8 °C
- Plug-in – meaning it is ready to use after assembly
- Interlocking cam-lock panel system makes it easy to assemble the room (tools for this are included)
- 80 mm panel insulation
- Low energy consumption compared to size (ranging from 17,93 to 25,92 kWh/24h)
- Eco-friendly refrigerant R290
- No special installation requirements, as refrigerant charge is below 150 g
- Anti-slip floor in SS304 stainless steel
- Max load on floor is 1500 kg/m2
- Standard door width is 700 mm, but we also offer models with 850 mm door width

General info about our freezer rooms

- Temperature range from -20 to 0 °C
- Plug-in – meaning it is ready to use after assembly
- Interlocking cam-lock panel system makes it easy to assemble the room (tools for this are included)
- 120 mm panel insulation
- Low energy consumption compared to size (ranging from 22,49 to 31,78 kWh/24h)
- Eco-friendly refrigerant R290
- No special installation requirements, as refrigerant charge is below 150 g
- Anti-slip floor in SS304 stainless steel
- Max load on floor is 2000 kg/m2
- Standard door width is 700 mm, but we also offer models with 850 mm door width

Real life installation

A Tefcold installation in Hellevad, Denmark of a CRPF2130 cold room and CRNF2130 freezer room with optional shelving (item 45721) and ramp (item 53907).

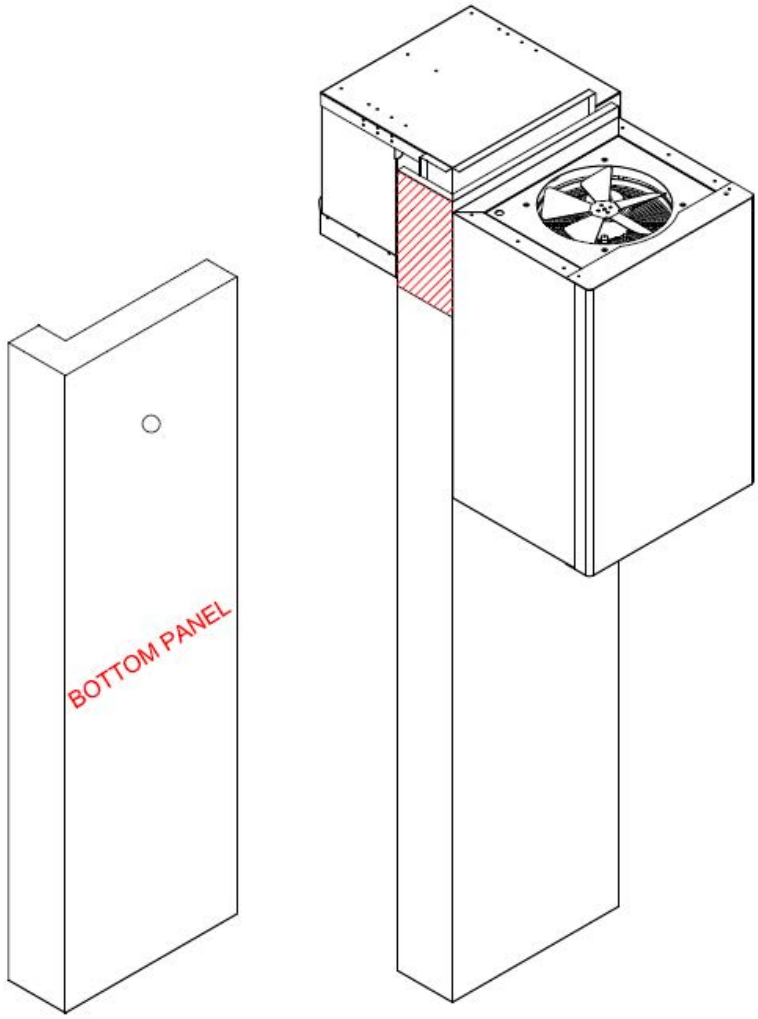

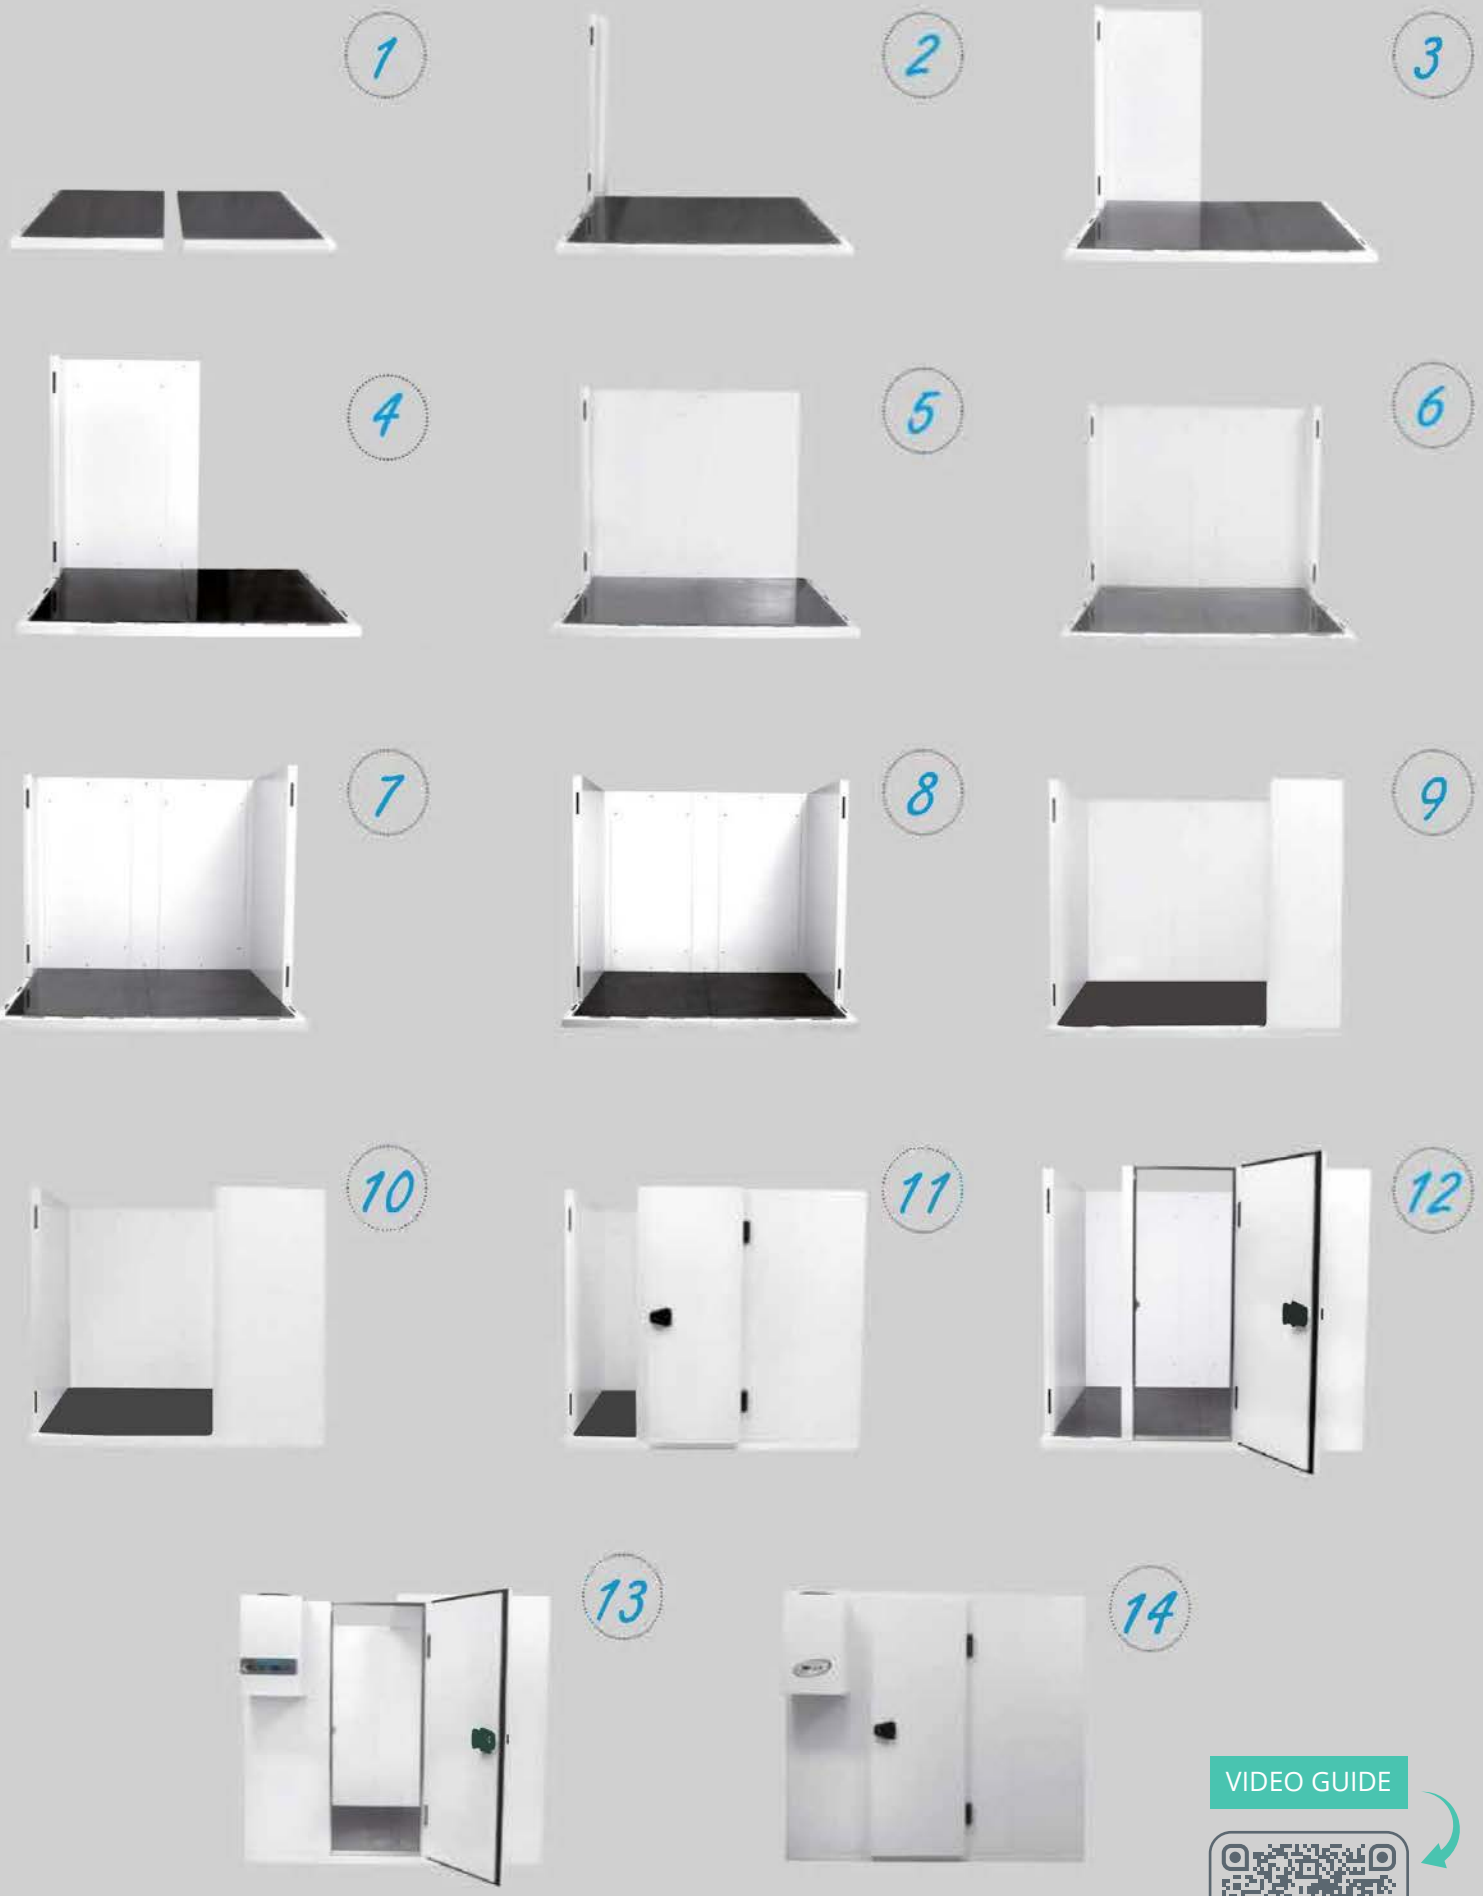

Easy assembly and (almost) endless possibilities

Our cold rooms and freezer rooms are quick and easy to assemble. They are built from insulated interlocking panels with a cam-lock system. On some models it is possible to move the position of the door and the mono block - just swap with another panel on the room that is the same size.

No matter which room size you choose, the refrigeration unit comes as a separate unit. It fits onto the short panel supplied.
See illustration below.

The cooling unit always comes as a separate piece to optimize transport. To install it, simply place it on top of the 3/4 length panel as seen on the illustration. After installing the cooling unit, you will have a full-length panel in spare.

PASSION FOR COOLING

Who are we

TEFCOLD is a family-owned company with headquarters in Viborg, Denmark. Cooling is our passion and we have more than 35 years of experience distributing commercial cooling equipment. Today we are one of the market leaders within the plug-in refrigeration industry. With the help of professional distributors and business partners, we export to customers in more than 100 countries worldwide. Our goal is to help customers keep temperatures down and sales up.

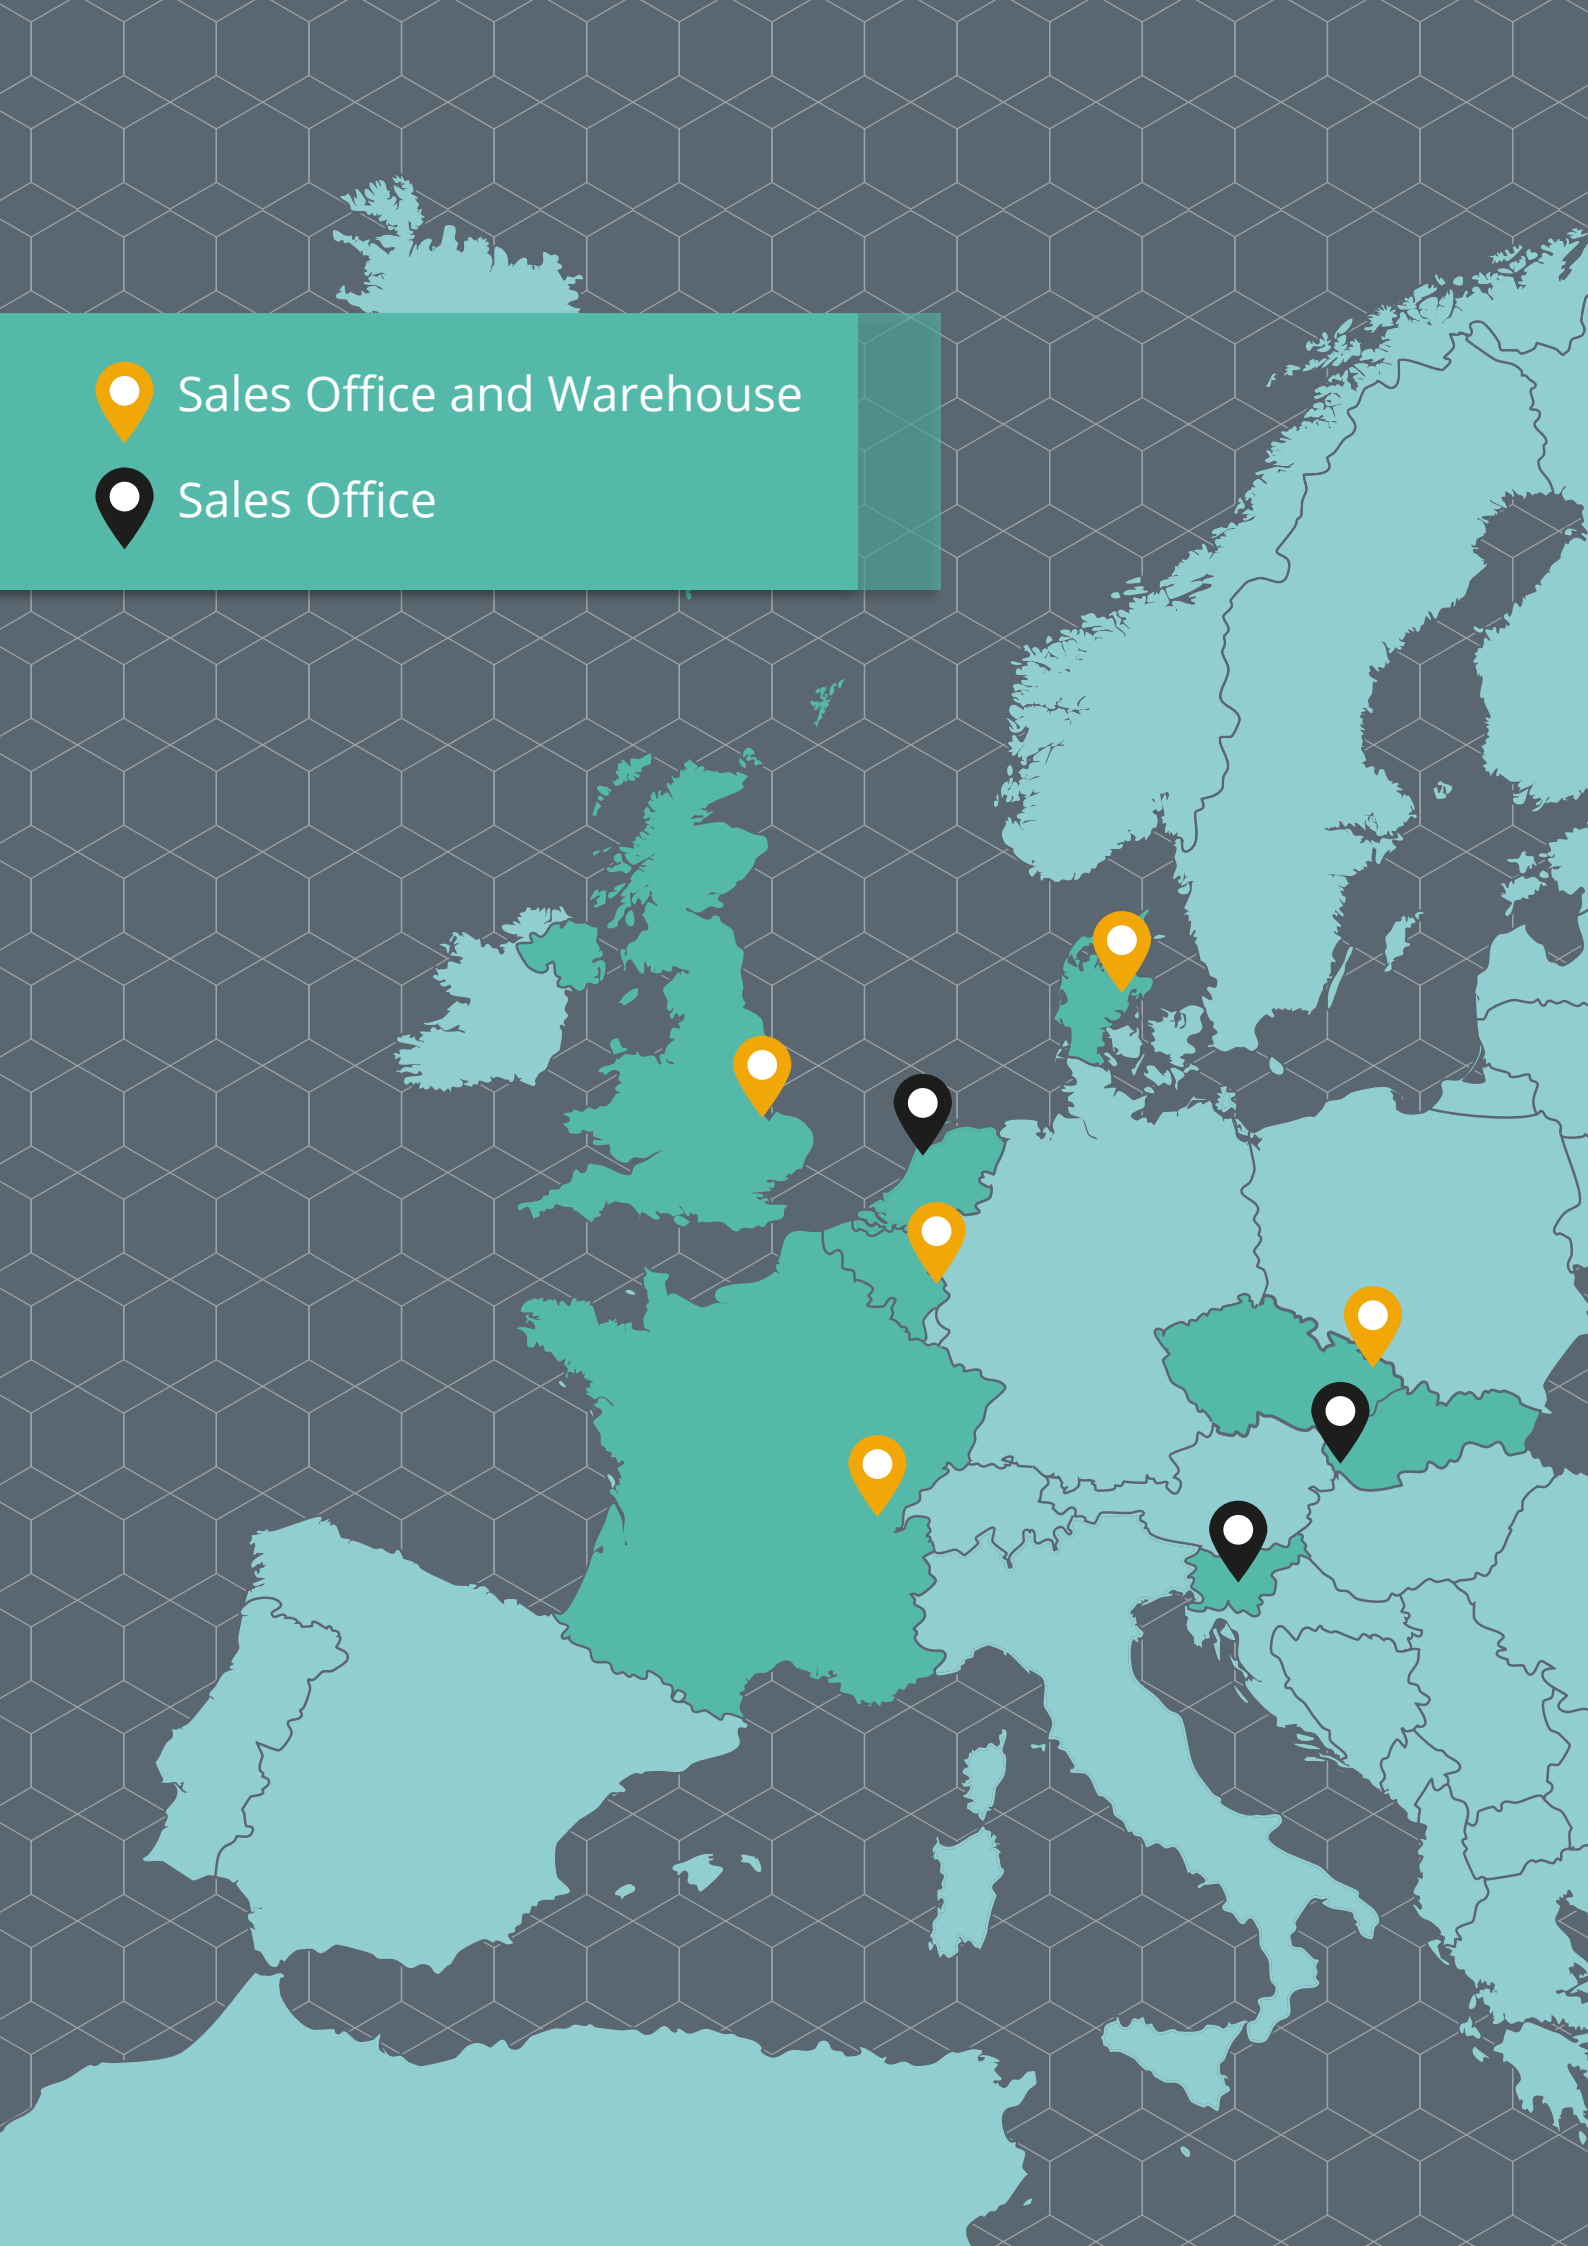

GASTRO ECONOMY

The TEFCOLD GROUP in numbers

- 150+ employees in 8 countries
- 50.000 m2 warehouse spread across Denmark, the United Kingdom, Belgium, France, and the Czech Republic
- 70.000+ units in stock
- 5000+ customers in 100 countries
- 170.000 units sold yearly

Sales Office and Warehouse
Sales Office

WHY BUY FROM US

Always a solution in stock for you
As you can see in this catalogue, we offer a wide range of coolers and freezers, and we always have more than 70.000 units in stock.

Global delivery
To ensure fast delivery, we have offices and warehousing throughout Europe. No minimum order quantity, mix your order as preferred and enjoy super-fast delivery times. Delivery direct from one of our factories is also an option.

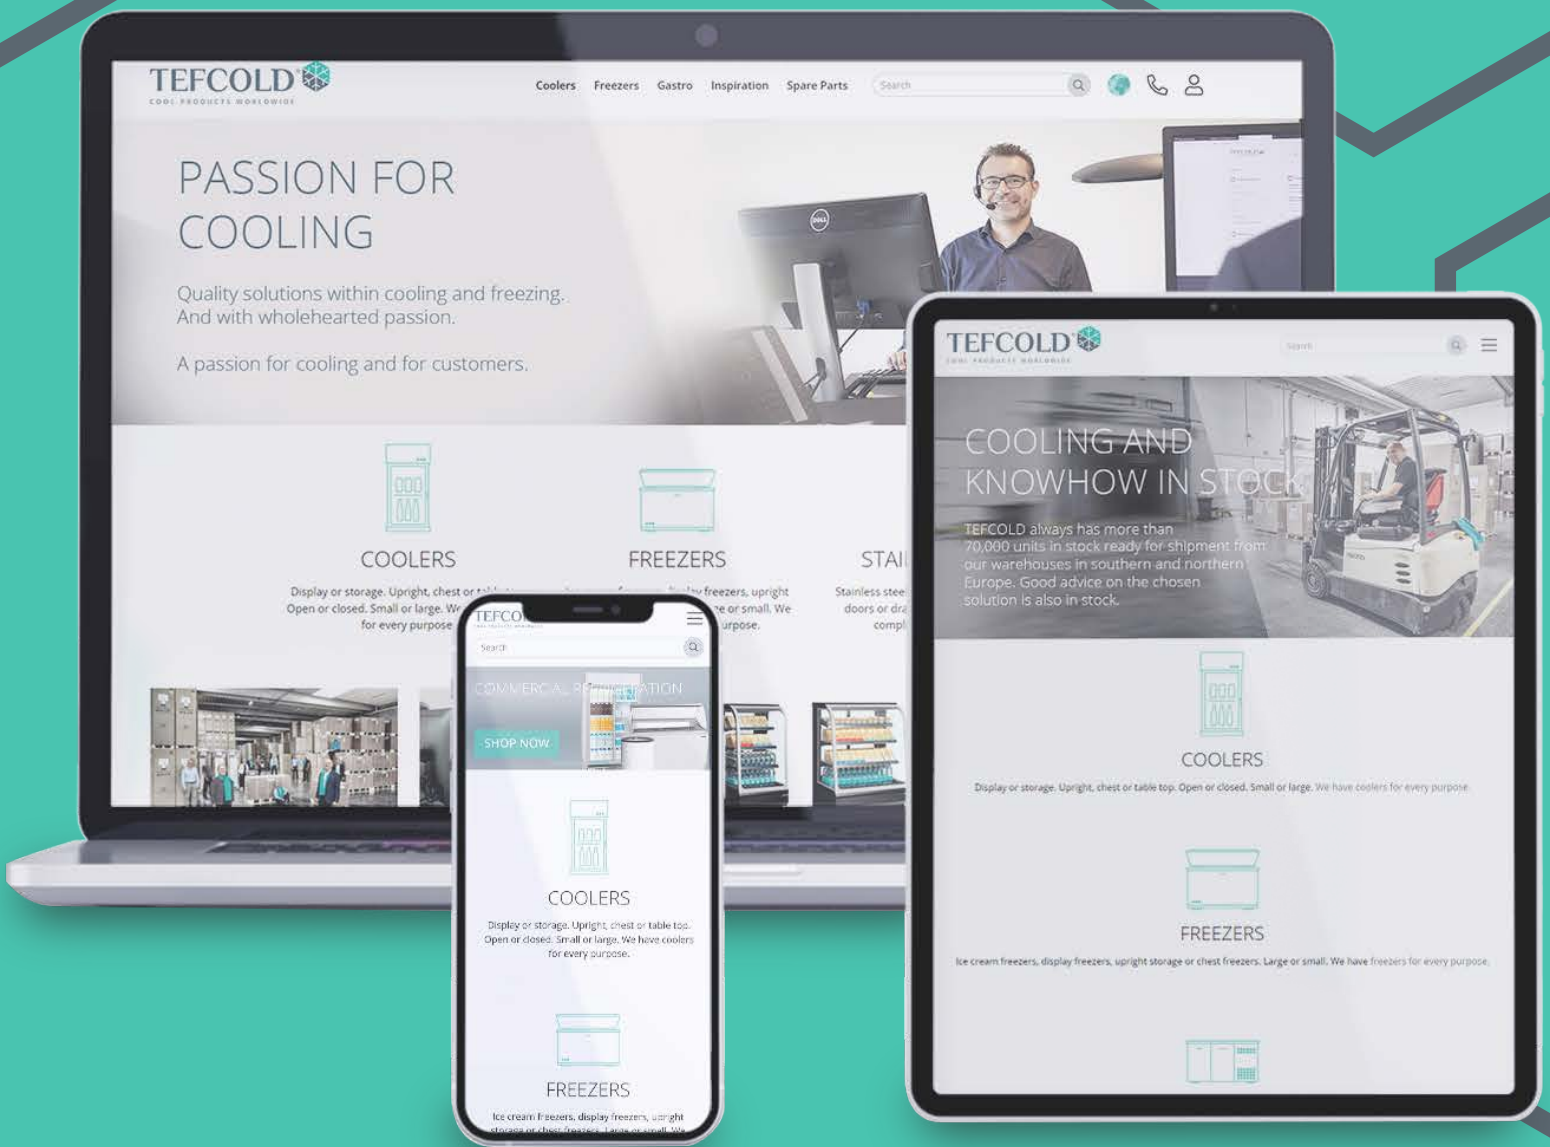

Save money – use our warehouse
You are welcome to arrange deliveries directly from one of our European warehouses to your customers. This way you can invest in the products you need now instead of filling up your own warehouse.

Standard or customized products
With us you always have the choice between standard or customized products. We develop new and innovative products based on market needs or customer request, and we have our own in-house branding facilities.

High-quality products
All of our existing and new products undergo strict quality control in our state-of-the-art testing facilities to ensure quality, reliability, efficiency, and to comply with regulations.

Eco-friendly
Our new products are developed with focus on keeping the energy consumption to a minimum, and we only use eco-friendly refrigerants.

Easy to do business with
It is our mission to work hard every day to provide our customers an excellent service and make their life easy. If you have any questions, our dedicated team will be glad to answer them.

COMMERCIAL COOLING
WHEN IT SUITS YOU

Making life easier for our customers is important to us and we therefore focus a lot of energy on developing useful IT tools that can help with this. On this page you can see an overview of some of the solutions we have come up with – which you get access to with a web login.

Benefits of being a TEFCOLD customer with a web shop login:

- Buy 24/7 at your convenience, in your local language
-
- Always with your agreed prices and potential warranty agreements
- Possibility to buy on credit
- See your transport costs immediately – based on calculated loading meters
- Real time stock info
- Date of arrival if a product is sold out
- Customer center with status on orders and invoices as well as tracking codes
- Access to additional documents like product drawings, electrical diagrams, energy labels etc.
- MediaBank with all product images ready for download
- Live XML feed so you can integrate our products to your web shop
- PDF offer function - use our web shop to make offers for your customers
- Comparison function - compare different products to make an informed decision
- Create favorite lists for e.g. different product groups, projects, customers
