Identity

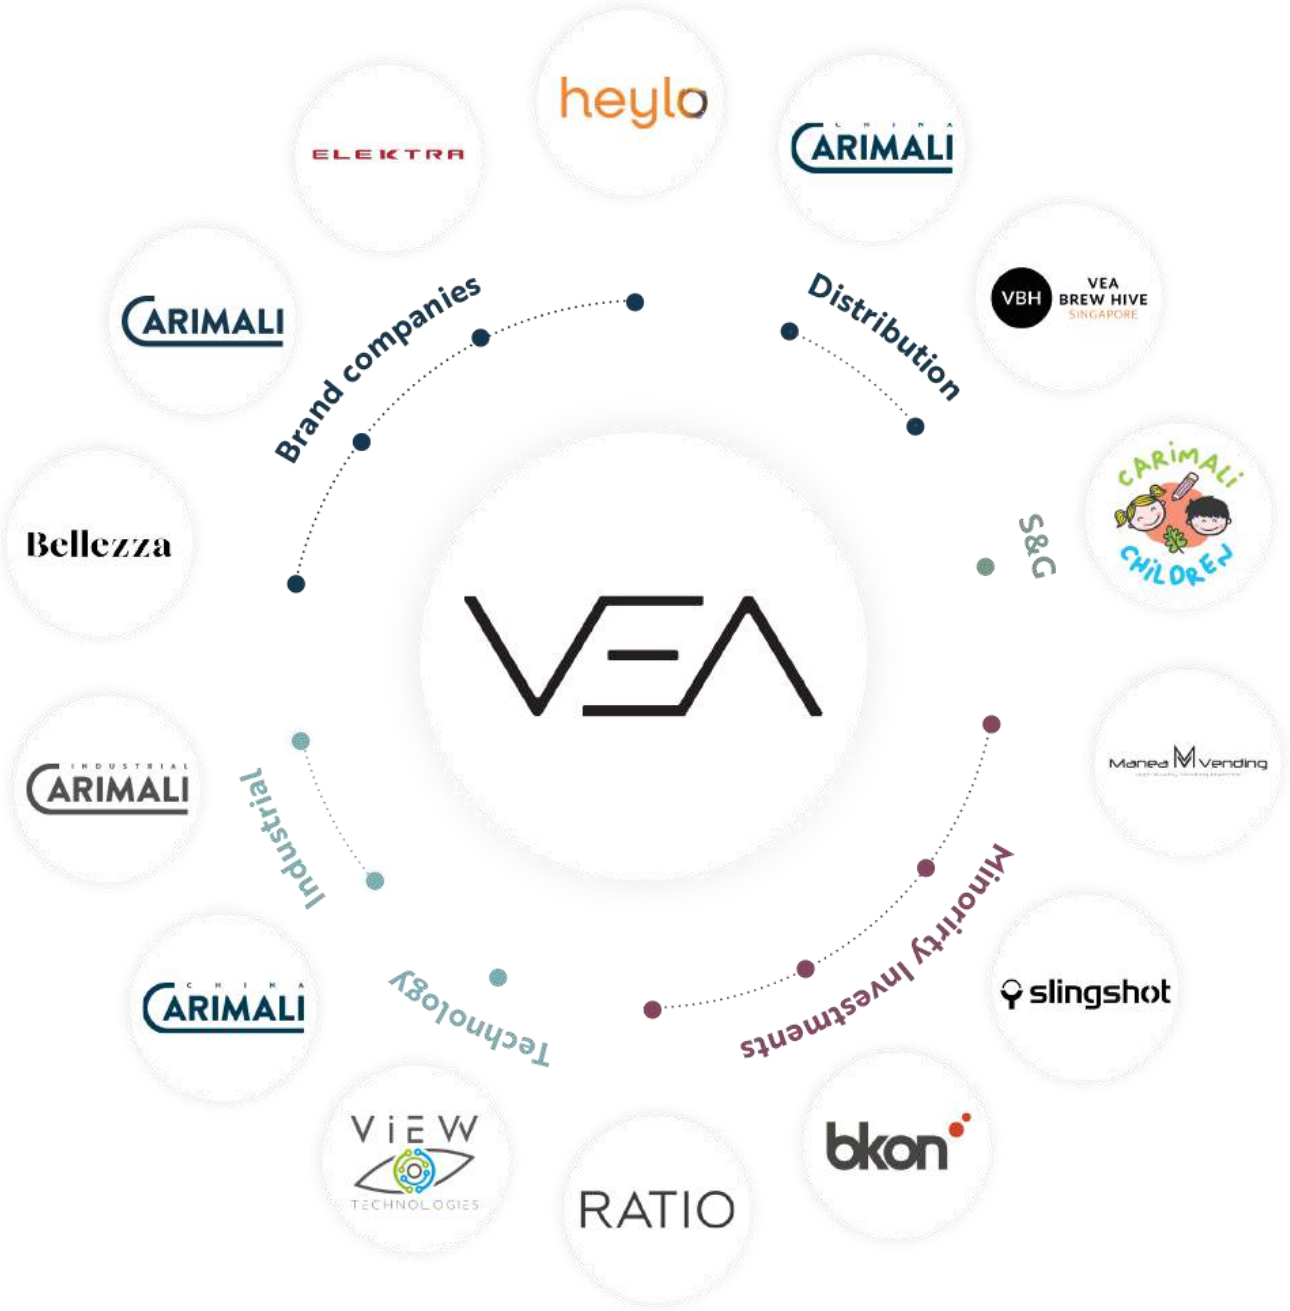

CARIMALI

Who is Carimali

Carimali has produced and sold professional coffee machines globally for over a century. Since 1919, the company has applied state-of-the-art technologies and modern manufacturing processes to develop fully automatic and traditional coffee machines, grinders, and accessories. The headquarters are in Bergamo, Italy, where the primary production plant and offices are located.

Carimali Italia

Carimali Italia was established in 2016 to expand the Italian network and has since served as the sales and services division for the Italian markets in Lainate, Milan. It offers comprehensive equipment and service solutions for the local market in the Ho.Re.Ca and OCS channels. Additionally, the Italian division also sells and provides technical support for different brands of VEA Group.

Lainate, Milan

Carimali China

In 2013 Carimali established a second production unit in Suzhou, China, to develop and distribute their machines throughout Asia-Pacific. Born to be the second assembly location for traditional coffee machines, Carimali China, over the years, has also become a service provider for trading products and reliable customer service. The Chinese unit currently exports Carimali machines to 15 countries and guarantees quality control and logistical support.

Suzhou, China

VBH Singapore

VEA Brew Hive Singapore is a sales and training office born to expand the presence of VEA Group brands in the Asia-Pacific region through direct connections with customers, partnerships with local businesses, and stronger relationships with distributors and roasters. VBH Singapore also functions as a training center, displaying new products and providing regular training sessions for technicians in the area.

CARIMALI

Carimali Industrial

VEA Group brands are committed to continually improving and developing new high-quality products. To ensure products meet the highest standards, a specialized industrial factory has been established where all the equipment is built in one place. This centralized location allows the brands to gain more expertise in producing excellent coffee machines and equipment.

INDUSTRIAL

Carimali China

In recent years to respond to the ever-changing market demands, Carimali China has focused on and manufacturing products with an ever-higher level of customization. As a result, new fully automatic and traditional machines have recently been launched, designed for the Chinese market and all neighboring countries. Carimali China is expected to increase productivity by up to 180%, which will improve quality control and factory efficiency.

CARIMALI

Quality System

Carimali places great importance on quality control. Our internal team ensures that raw materials and production adhere to fixed quality standards. Quality control measures are implemented at every stage of the process, from when raw materials enter the factory throughout production to the final phase of verifying the results.
